The Enduring Beauty of Wood

There’s solid wood durability built into every KK cabinet. From the hardwood doors and stiles to the solid wood elements, each cabinet is built to last.

Note these quality features:

- All frames are built of solid 3/4” hardwoods. Each rail is kiln-dried, joined by mortise and tenon, and then glued for added strength.
- Solid wood toe kicks, 3/4” thick.
- Solid wood hanging strips on wall and base cabinets, located at the top and bottom.
- End panels consist of 3-ply construction, 1/2” thick engineered wood core with hardwood veneers.

All painted and stained cabinets are protected with a durable topcoat. The result is a surface that is virtually “family-proof,” resisting many household chemicals, water, alcoholic beverages, mild acids, and even nail polish.

The result is more than just a kitchen you can cook in—it’s a kitchen you can live in at a price you can live with.

And there’s more. All Kitchen Kompact cabinets feature plywood drawers as a standard. A front-to-back epoxy-coated drawer system is securely attached to a solid wood strip in the back of the cabinet for stability, and years of smooth operation. We also offer universal design cabinets.
