

FAMILY-OWNED AMERICAN MANUFACTURER
OF KITCHEN & BATH CABINETS SINCE 1937

Subject: Kitchen Kompact BABA Compliance

To whom it may concern:

Kitchen Kompact cabinets fully comply with the **Build America, Buy America (BABA) Act** requirements, making them an ideal choice for federally funded and assisted projects.

We ensure that well over 55% of every SKU's total cost is invested into components which are sourced or produced domestically—handily exceeding BABA requirements. Furthermore, our cabinets have been entirely assembled in Jeffersonville, Indiana since 1959.

We are committed to full transparency, and will gladly provide any documentation needed to demonstrate compliance with BABA standards for your federal housing projects. Please do not hesitate to contact us for further information or specific documentation regarding our products.

Thank you for considering Kitchen Kompact. We look forward to the opportunity to supply the American people with affordable USA-sourced and USA-assembled cabinets.

Sincerely,

Kitchen Kompact Inc.
